Fitness membership platform · Udaipur, Rajasthan · Demo document set

Demo invoice cases — how each ZonoFit tax scenario would look

A visual companion to the ZonoFit Taxation PRD (rev 0.2). Each page shows **one scenario** using a ₹3,000 tax-inclusive monthly membership at a **Demo primary gym** in Udaipur. These are layout and maths samples only: no document here is a valid tax invoice, none records a completed transaction, and none is approved for live billing.

Case	Scenario	Document shown
A	Registered primary gym is the supplier; ZonoFit generates on its behalf	Sample tax invoice layout
B	Unregistered primary gym is the supplier	Commercial receipt — no GST
C	ZonoFit (Flex) as principal supplier — conditional mode	Sample tax invoice layout
D	Renewal = new supply funded by ₹1,000 credits + ₹2,000 cash	Sample tax invoice + allocation
E	Renewal with a verified same-obligation taxed advance	Sample final invoice with advance adjustment
F	User cancellation — 2-credit charge	Charge preview — not issuable
G	Membership-end 20% haircut on unused credits (+ forfeiture note)	Credit adjustment preview — not issuable
H	Gym settlement statement (inclusive payout)	Payout statement — not a customer invoice

Applies to every page

- Current confirmed v1 policy: Udaipur only · one primary gym · 10 mandatory visits · no other gyms or cities · no shop · no ordinary refunds · leftover eligible credits usable for next month at the same gym · 20% haircut on unused credits at membership end (outside-gym use is future/disabled; haircuts never stack by default).
- All customer prices and gym payouts are tax-inclusive. Eligible fitness membership: SAC 999723, 5% (CGST 2.5% + SGST 2.5%), no input tax credit — Notification 15/2025-CT(Rate), effective 22 Sep 2025.
- Supplier mode (gym vs ZonoFit), issuer GSTINs, split %, credit ₹ value and fee classification are **unconfirmed**; live issuing is blocked until a CA approves.
- Demo parties: “Demo member” (no address/phone), “Demo primary gym, Udaipur” (not a real partner). Status on every document: UNPAID / DEMO. Amounts computed in integer paise and checked by script.

SAMPLE — NOT VALID

SAMPLE — NOT A VALID TAX INVOICE
Illustrative tax scenario; not approved for live billing

ZonoFit

Fitness membership platform · Udaipur, Rajasthan · Demo document set

Case A · Registered gym supplies the membership (Mode A)

The gym is the legal supplier and issuer. ZonoFit only generates the document on the gym's behalf, and only with written authority.

SAMPLE TAX INVOICE LAYOUT — issued in the name of the gym (demo)

SUPPLIER / LEGAL ISSUER	GENERATED BY	RECIPIENT
Demo primary gym Udaipur, Rajasthan, India · State code 08 Gym GSTIN: **To be verified — not supplied**	**ZonoFit** (facilitator) On behalf of the supplier, only if the gym contract authorises it Operator: FLEX LIFESTYLE VENTURES	**Demo member** Unregistered (B2C) No address/phone in demo

Document no.	Date	Status	Place of supply	Reverse charge
DEMO-A01	**Demo — not issued**	**UNPAID / DEMO**	**Rajasthan (08) — assumed for this scenario; not GST-verified**	**No**

Description	Qty	Gross (incl. tax)	Discount	Taxable value	CGST 2.5%	SGST 2.5%	Line total
Monthly fitness membership — Demo primary gym SAC 999723 · 1 month · service period: demo month	1	₹3,000.00	₹0.00	₹2,857.14	₹71.43	₹71.43	₹3,000.00

Assumptions

- Gym is GST-registered and the supply qualifies for 5% (no ITC).
- Intra-state supply assumed (Rajasthan). Price ₹3,000 is inclusive — never ₹3,150.
- No ZonoFit commission appears on the member's invoice; ZonoFit's fee to the gym is a separate document with its own classification.

Taxable value	₹2,857.14
CGST @ 2.5%	₹71.43
SGST @ 2.5%	₹71.43
Total (tax inclusive)	**₹3,000.00**
Amount paid	₹0.00 (demo)
Balance due	**₹3,000.00**

How	Back out tax from the inclusive price: 3,000 × 100/105 = 2,857.14 taxable; 142.86 tax split 71.43 + 71.43. Gym's legal name, GSTIN and invoice series must print on it.
Why	In Mode A the gym makes the supply, so only the gym can issue the GST invoice. ZonoFit collecting money does not make the ₹3,000 ZonoFit revenue.

SAMPLE — NOT VALID

ZonoFit

Fitness membership platform · Udaipur, Rajasthan · Demo document set

Case B · Unregistered gym supplies the membership (Mode A)

The gym is not GST-registered in this scenario, so no GST can be charged and no GST tax invoice can exist.

COMMERCIAL RECEIPT — NOT A GST TAX INVOICE (demo)

SUPPLIER	GENERATED BY	RECIPIENT
Demo primary gym Udaipur, Rajasthan, India GST registration: **none in this scenario** — no GSTIN shown	**ZonoFit** (facilitator) On behalf of the gym, only with written authority	**Demo member** No address/phone in demo

Receipt no.	Date	Status	GST
DEMO-B01	**Demo — not issued**	**UNPAID / DEMO**	**Not charged — unregistered supplier scenario**

Description	Qty	Amount	Discount	GST	Total
Monthly fitness membership — Demo primary gym SAC 999723 shown for reference only · 1 month	1	₹3,000.00	₹0.00	Not charged	₹3,000.00

Assumptions

- The gym is genuinely unregistered (status to be verified). This is “not GST-registered”, not “fitness is exempt”.
- No CGST/SGST lines and no GSTIN — inventing either would be a fake GST invoice.
- ZonoFit's own fee to this gym (if any) is assessed separately and needs its own invoice and classification; it is not shown here.

Amount	₹3,000.00
GST	Not charged
Total	**₹3,000.00**
Amount paid	₹0.00 (demo)
Balance due	**₹3,000.00**

How	Same ₹3,000 inclusive price; the full amount is consideration for the gym. Title must say commercial receipt.
Why	An unregistered supplier cannot collect GST. If ZonoFit is the principal instead (Case C), its own 5% still applies regardless of this gym's status.

SAMPLE — NOT VALID

SAMPLE — NOT A VALID TAX INVOICE
Illustrative tax scenario; not approved for live billing

ZonoFit

Fitness membership platform · Udaipur, Rajasthan · Demo document set

Case C · ZonoFit (Flex) supplies the membership as principal (Mode B — conditional)

Only after a CA opinion and matching contracts. Not the confirmed mode.

SAMPLE TAX INVOICE LAYOUT — ZonoFit operator as supplier (demo, conditional mode)

SUPPLIER / LEGAL ISSUER	SERVICE LOCATION	RECIPIENT
FLEX LIFESTYLE VENTURES (sole proprietorship), Banswara, Rajasthan — legal operator per ZonoFit public terms GSTIN: **To be verified — not supplied** Registration status: **unverified**	**Demo primary gym**, Udaipur (upstream partner; may be GST or non-GST)	**Demo member** Unregistered (B2C) No address/phone in demo

Document no.	Date	Status	Place of supply	Reverse charge
DEMO-C01	**Demo — not issued**	**UNPAID / DEMO**	**Rajasthan (08) — assumed for this scenario; not GST-verified**	**No**

Description	Qty	Gross (incl. tax)	Discount	Taxable value	CGST 2.5%	SGST 2.5%	Line total
Monthly fitness membership (ZonoFit) — Demo primary gym SAC 999723 · 1 month · service period: demo month	1	₹3,000.00	₹0.00	₹2,857.14	₹71.43	₹71.43	₹3,000.00

Assumptions

- Flex Lifestyle Ventures is GST-registered (GSTIN not supplied — must be verified first).
- ZonoFit's own supply qualifies for 5% with no ITC. Tax is on the full ₹3,000, not on ZonoFit's margin only.
- A non-GST upstream gym does not exempt ZonoFit's output; a GST gym's tax becomes ZonoFit's cost (no credit).

Taxable value	₹2,857.14
CGST @ 2.5%	₹71.43
SGST @ 2.5%	₹71.43
Total (tax inclusive)	**₹3,000.00**
Amount paid	₹0.00 (demo)
Balance due	**₹3,000.00**

How	Same arithmetic as Case A, but the operator's legal name, GSTIN and series print as issuer.
Why	As principal, ZonoFit sells the membership itself, so the full consideration is its taxable supply. Choosing this mode needs CA sign-off.

SAMPLE — NOT A VALID TAX INVOICE

ZonoFit

Fitness membership platform · Udaipur, Rajasthan · Demo document set

Case D · Next-month renewal paid with ₹1,000 credits + ₹2,000 cash (new supply)

Leftover credits pay for part of a fresh membership at the same primary gym. Credits are a way of paying, not a price cut, in this scenario.

SAMPLE TAX INVOICE LAYOUT — renewal (demo; supplier per confirmed mode)

SUPPLIER / LEGAL ISSUER	RECIPIENT	PLAN
Per confirmed mode: **Demo primary gym** (Mode A) or **FLEX LIFESTYLE VENTURES** (Mode B) GSTIN: **To be verified — not supplied**	**Demo member** Unregistered (B2C)	Monthly membership, next month Same primary gym, Udaipur

Document no.	Date	Status	Place of supply	Reverse charge
DEMO-D01	**Demo — not issued**	**DEMO ALLOCATION**	**Rajasthan (08) — assumed for this scenario; not GST-verified**	**No**

Description	Qty	Gross (incl. tax)	Discount	Taxable value	CGST 2.5%	SGST 2.5%	Line total
Monthly fitness membership — next month SAC 999723 · 1 month	1	₹3,000.00	₹0.00	₹2,857.14	₹71.43	₹71.43	₹3,000.00

Assumptions

- Credit ₹ value is illustrative (₹1,000); the real credit-to-₹ rate is unconfirmed.
- Fresh supply: GST is on the full ₹3,000 (₹142.86) — never only on the ₹2,000 cash (₹95.24).
- Allocation is demo only; no payment has been made.

Taxable value	₹2,857.14
CGST @ 2.5%	₹71.43
SGST @ 2.5%	₹71.43
Invoice total	**₹3,000.00**
Paid with credits (demo)	₹1,000.00
Cash top-up (demo)	₹2,000.00
Outstanding (demo)	**₹0.00**

How	Invoice the full price; record credits and cash as two payment allocations underneath.
Why	How the member pays does not change the value of the supply. Tax only on the top-up needs Case E evidence or a genuine price reduction approved by the CA.

SAMPLE — NOT A VALID TAX INVOICE

ZonoFit
Fitness membership platform · Udaipur, Rajasthan · Demo document set

Case E · Renewal where ₹1,000 was a verified taxed advance for this same supply

Scenario only — the user has not confirmed that credits are taxed advances. Requires same supplier, same obligation, documented provenance and CA approval.

SAMPLE FINAL TAX INVOICE LAYOUT — with advance adjustment (demo)

SUPPLIER / LEGAL ISSUER	RECIPIENT	LINKED DOCUMENT
Same supplier that taxed the advance (Mode A gym or Mode B Flex) GSTIN: **To be verified — not supplied**	**Demo member** Unregistered (B2C)	Prior receipt voucher **DEMO-ADV-01** (scenario only) Advance ₹1,000 · tax already accounted

Document no.	Date	Status	Place of supply	Reverse charge
DEMO-E01	**Demo — not issued**	**UNPAID / DEMO**	**Rajasthan (08) — assumed for this scenario; not GST-verified**	**No**

Description	Qty	Gross (incl. tax)	Discount	Taxable value	CGST 2.5%	SGST 2.5%	Line total
Monthly fitness membership — next month SAC 999723 · 1 month	1	₹3,000.00	₹0.00	₹2,857.14	₹71.43	₹71.43	₹3,000.00

Tax reconciliation	Gross	Taxable	CGST	SGST	Tax
Advance already taxed (DEMO-ADV-01)	₹1,000.00	₹952.38	₹23.81	₹23.81	₹47.62
Incremental tax on this invoice	₹2,000.00	₹1,904.76	₹47.62	₹47.62	₹95.24
Total for the supply	**₹3,000.00**	**₹2,857.14**	**₹71.43**	**₹71.43**	**₹142.86**

Assumptions

- Only valid if the earlier ₹1,000 was taxed by the same supplier for this same membership obligation.
- The ₹47.62 already paid is allocated, not booked again — and never treated as input tax credit.
- Otherwise use Case D (full ₹142.86 now).

Invoice total	**₹3,000.00**
Less: advance received earlier (demo)	₹1,000.00
Cash due now (demo)	₹2,000.00
Tax booked now	₹95.24
Total tax for the supply	**₹142.86**

How	Final invoice shows the full ₹142.86; system books only ₹95.24 new and links ₹47.62 to the advance record.
Why	The advance was already taxed once. Linking it prevents double GST while the invoice still shows the true value of the supply.

ZonoFit
Fitness membership platform · Udaipur, Rajasthan · Demo document set

Case F · User cancellation — 2-credit charge

The user confirmed 2 credits are kept on cancellation. The ₹ value of a credit and the tax classification are not confirmed.

CHARGE PREVIEW — NOT AN ISSUABLE TAX INVOICE

CHARGED BY	CUSTOMER	STATUS
To be decided: membership supplier (if ancillary) or ZonoFit (if an independent fee)	**Demo member**	PREVIEW · not posted · not issuable

Preview no.	Trigger	Cancellation window	Status
DEMO-F01	**Cancellation event — scope unconfirmed**	**Unconfirmed**	**DEMO**

Description	Qty	Amount	Tax rate	Tax	Total
Cancellation charge (credits retained)	2 credits	TBD — credit value unconfirmed	Pending classification	Pending (not zero)	TBD

Illustration only — ASSUME 1 credit = ₹10 (demo, not the real rate), so charge = ₹20 inclusive

- If ancillary to the membership (follows the principal 5% rate): taxable ₹19.05 + tax ₹0.95 = ₹20.00.
- If approved as an independent 18% tax-inclusive fee: taxable ₹16.95 + tax ₹3.05 = ₹20.00.
- If it is simply keeping consideration that was already taxed: possibly no new tax — pending. Neither option is chosen here.

How	Store the charge as credits with rule version and approval status; compute ₹ and tax only after the credit value and classification are approved.
Why	Circular 178/10/2022 (paras 11.3–11.4): an ancillary cancellation charge can follow the principal supply's rate; an independent fee may differ. 18% is not automatic.

SAMPLE — NOT A VALID TAX INVOICE

ZonoFit
Fitness membership platform · Udaipur, Rajasthan · Demo document set

Case G · Membership end — 20% haircut on unused credits

User-confirmed rule: 20% of unused credits at membership end (or later on outside-gym use, which is disabled in v1). Base, ₹ conversion and stacking are unconfirmed.

CREDIT ADJUSTMENT PREVIEW — NOT A TAX INVOICE

ADJUSTED BY	CUSTOMER	STATUS
ZonoFit or the membership supplier — legal issuer unconfirmed	**Demo member**	PREVIEW · not posted · not issuable

Preview no.	Trigger	Haircut applied before?	Status
DEMO-G01	**Membership end, unused credits**	**No (no stacking by default)**	**DEMO**

Credit lot	Unused value (illustrative)	Haircut 20%	Carried forward (80%)	Tax on haircut
DEMO-LOT-01, same primary gym	₹1,000.00	₹200.00	₹800.00	Pending classification

Tax options on the ₹200 — none approved

- **Only if** approved as an independent 18% tax-inclusive fee: taxable ₹169.49 + GST ₹30.51 (CGST ₹15.26 / SGST ₹15.25; the odd paisa goes to CGST — an engineering rounding example needing CA approval). Never ₹200 + ₹36.
- If ancillary and charged by the correct supplier: possibly 5% inclusive → ₹190.48 + ₹9.52.
- If it is retention of consideration already taxed: no automatic new tax and no reversal — pending.
- Fee being tax-inclusive is assumed from the general inclusive-pricing rule; not specifically confirmed for this fee.

Forfeited credits (internal journal — not an invoice)

- Cause/trigger of forfeiture is unconfirmed; missing the 10 mandatory visits does not forfeit credits automatically.
- Recording forfeiture as income does not by itself create or remove GST: tax status is **unknown, not zero**, until the supply is reconciled (voucher breakage under Circular 243/37/2024 applies only if credits are genuine vouchers).

How	Mark the lot haircut_applied=true with the source event; carry ₹800 forward to next month at the same gym (80% carry-forward is inferred, awaiting confirmation).
Why	Prevents charging 20% twice and avoids guessing a tax rate before the haircut's true nature is classified.

SAMPLE — NOT A VALID TAX INVOICE

ZonoFit
Fitness membership platform · Udaipur, Rajasthan · Demo document set

Case H · Gym settlement statement — inclusive payout

How ZonoFit shows what it owes the gym. This is not a customer invoice. In Mode B the gym issues its own B2B invoice under its contract.

PAYOUT STATEMENT (DEMO) — NOT A CUSTOMER INVOICE

PAYER	PAYEE	PERIOD
FLEX LIFESTYLE VENTURES (ZonoFit operator) GSTIN: **To be verified — not supplied**	**Demo primary gym**, Udaipur Gym GSTIN: **To be verified — not supplied**	Demo month · 1 member

Statement no.	Contract amount	Status
DEMO-H01	**₹2,000 inclusive (illustrative split, not approved)**	**UNPAID / DEMO**

Item	Gross (incl.)	Taxable	CGST 2.5%	SGST 2.5%	Payable
Monthly payout — 1 member (registered gym, eligible 5%)	₹2,000.00	₹1,904.76	₹47.62	₹47.62	₹2,000.00
If the gym is unregistered	₹2,000.00	—	—	—	₹2,000.00 (no GST)

Per-visit illustration (old 2:1 example — historical, not the current split)

• ₹80 payout inclusive → taxable ₹76.19 + tax ₹3.81. Split shown as CGST ₹1.91 / SGST ₹1.90: the extra paisa is our balanced-rounding rule (engineering example, needs CA approval), not law. A plain 2.5% each would round to ₹1.90 + ₹1.90 = ₹3.80 and leave a 1-paisa gap.

Assumptions

• ₹2,000 of ₹3,000 is an illustrative contract amount only; the current split and basis are unconfirmed.
• In Mode B, if both supplies qualify for 5%, the gym's ₹95.24 is a cost to ZonoFit — no input tax credit.
• Cash retained ₹1,000 − output GST ₹142.86 = ₹857.14 before other costs; this is not net profit.

How	Pay the contract gross; the gym's own invoice (if registered) shows the tax inside it.
Why	Gym payouts are inclusive by contract; GST applies only where the gym is registered and the supply is eligible.

SAMPLE — NOT A VALID TAX INVOICE
